

MARKET INSIGHT & FITTING FOCUS

PREMIUM FUNCTIONALITY

How rising refurbishment activity, retrofit plans, and demand for installer efficiency are setting new hardware expectations across Ireland.

GLOBAL MARKET UPDATE: REFURBISHMENT FOCUS

Global markets continue prioritizing energy efficiency, modern construction methods, and building solutions that reduce lifecycle costs and installation times.

IRELAND OUTLOOK: RECORD Q1 GROWTH

CSO reports **7,856 completions (+32.9% vs Q1 2025)**—the highest Q1 on record. Enhanced SEAI retrofit supports continue driving renovation demand.

PRODUCT SPOTLIGHT

CEMUX H-BOX Drawer System

The **CEMUX H-BOX** reflects current market demand by combining sleek contemporary wall profiles with heavy-duty, installer-friendly performance.

KEY TRADE ADVANTAGE:

"Delivers luxury contemporary styling while shortening on-site installation and adjustment times."

- **Design Profile:** Ultra-slim sidewalls for maximum internal drawer volume.
- **Motion Technology:** Integrated soft-close mechanisms and full-extension access.
- **Adjustability:** Straightforward multi-directional adjustment for rapid alignment.
- **Application:** Ideal for modern kitchens, utility rooms, bedroom joinery, and commercial fit-outs.

Retrofit & Housing Drivers

With Irish dwelling completions reaching record levels alongside expanded national retrofit programs, demand for interior hardware continues to accelerate.

"Contractors seek products that improve installation efficiency without compromising quality."
